Harvest Season Is "Just Around The Corner"

WEATHER WARMS UP; CROPS RIPENING IN DISTRICT

Crops in the Bassano district are beginning to show signs of ripening as warm weather for the past few days has made conditions favourable for the filling out of grain stands. Little rainfall has been reported this week, although a light shower fell over the week-end. Temperatures last week-end were a little on the cool side, but during the early part of this week, thermometers have shown a steady rise, with the mercury resting in the neighborhood of eighty degrees in the shade.

Many fine fields of grain may be seen in the district this year. It is reported that crops look much better for this time of the year than they have since the late 1920's, and there is every indication that yields will exceed those of the past ten years.

In the west Bassano district, considerable damage by hail resulted from July storms. This was mainly in the Hussar district, where crops were hailed out practically 100 per cent. Other surrounding districts report very favourable prospects.

Texas Survey Party Move To Taber Dist.

On Tuesday of this week, members of the Geophysical Service Incorporated, numbering approximately forty men, bade farewell to Bassano and left for the Taber District, where they will conduct their work for the next couple of months.

The party has been conducting survey for the past three months. Headquarters were made in the Stiles Building next to the Recorder Office. Equipment of the group included eight trucks with drilling and sounding machinery, and a large number of cars.

Several women members of the group, which came to Canada from Texas and adjoining southern States, will remain in Bassano until the party has completed its work in the Taber District and prepare to move back to the States for the winter months.

LOCAL GROCERY CLERK TO JOIN FORCES

Andrew "Scotty" Cathro left the staff of McKee's Stores on Wednesday of last week, to offer his services with the Canadian Active Service Forces. Before journeying to Calgary, where he expects to enlist with the Army Service Corps Branch of the Calgary Highlanders, Mr. Cathro, accompanied by his wife and son, David, motored to Gull Lake, Sask., to visit with Mrs. Cathro's parents for a few days. "Scotty" is the son of Mr. and Mrs. D. Cathro of Bassano, and has been a prominent figure in local sporting circles for a number of years. He has been an employee in McKee's Stores for the past three years, where he has offered very efficient service. His many friends in Bassano and District wish him every success in his future undertakings. He is a native of Scotland, where he resided with his parents until an early age.

FATHER OF S. H. EDWARDS PASSES AT COAST

Mr. and Mrs. S. H. Edwards returned on Thursday last, from a three weeks' visit at Vancouver. While there, Mr. Edwards' father, who has been a resident in the coast point for the past ten years, passed away following a short illness. Funeral services were conducted in Calgary on Tuesday, August 6th, where interment was made. Mr. Edwards, Sr. has made several visits to Bassano, where he has numerous acquaintances. He celebrated his eighty-fifth birthday one week before his death. Sympathy of the community is extended to the Edwards family in their sad bereavement.

Local Guide Leaders Attend Jean Berry Funeral in Brooks

Mrs. J. Snape and Mrs. H. E. Riley of Bassano led the Brooks Girl Guide Troop in the formation of a guard of Honor at the funeral of Miss Jean Berry, 23, in Brooks on Monday, July 29th. Miss Berry died in the local hospital on Friday, July 26th, following a six weeks' illness.

Jean Berry was the daughter of Mr. and Mrs. Frank H. Berry of Brooks. Born in Bassano on February 10th, 1917, Miss Berry resided here with her parents until she was five years of age. In 1922 Mr. and Mrs. Berry moved to Brooks, where they have resided since.

Jean was Captain of the Brooks troop of Girl Guides, and on numerous occasions had paid visits to the Bassano Girl Guide Troop. She played an active part in organizing the local troop some few years ago, and spent considerable time here instructing the girls.

Deepest sympathy is extended to the bereaved family by their many friends in the Bassano district.

Wedding Anniversary Of Wide Interest

(Weyburn Review)

Mr. and Mrs. Thompson McLelland, popular and widely known hosts of the Soo Hotel, Weyburn, celebrated their golden wedding on Sunday afternoon, July 28th.

Hundreds of their relatives and friends called on them at the Soo Hotel to extend hearty congratulations to them upon the eventful milestone in their long busy lives. Hundreds of letters and telegrams of congratulations were also received by Mr. and Mrs. McLelland from near and far.

In excellent health, Mr. and Mrs. McLelland have been well known and highly respected citizens of Weyburn since 1909. They came to Weyburn from Estevan, where they had operated the Kelly House for six years until it was destroyed by fire in 1909. They had been engaged in the hotel business at Portage la Prairie, Monitau, Melita and Brandon, successively, in Manitoba, before coming to Saskatchewan four years after the province was created.

Mr. McLelland was born at Carleton Place, Wellington county, Ontario, the son of the late Robert and Margaret McLelland. Mrs. Mc-

MORTON REPORTED RECOVERING RAPIDLY

Jack Morton, 60 year old cowboy who was stabbed at the Gem Stampede on Wednesday of last week, is reported to be making suitable recovery in the local hospital according to information received by the Recorder.

Morton is suffering from several deep wounds about the abdomen, neck and back, inflicted by a jack-knife in the hands of Frank Roybe, another old-time cowboy of the Gem district. Following the affray Morton was immediately removed from the Gem Stampede grounds to the Bassano Hospital, where his condition last week was reported to be critical. It has been stated that Morton's wounds were of such seriousness that the average man could not have survived the ordeal as long as Morton has.

Roybe was arrested by local I. C. M. Police and removed to Calgary where he was remanded for trial. At time of going to press no date has been announced for this hearing.

Preparations For Registration Being Completed in Bassano

Citizens of the Bassano district have been busy preparing themselves for registration here on Monday, Tuesday and Wednesday, August 19th, 20th and 21st, and during the past week many calls have been made at the Recorder Office for copies of the Recorder containing the questions to be answered.

Registration will take place in the local Masonic Hall on the days set aside. Mr. R. H. Struthers, and Mr. E. L. Skerrett, both of Bassano, will act as deputy registrars at this point, with the assistance of about ten volunteer workers. Mr. H. O. Duggan of Medicine Hat is the chief registrar for the Medicine Hat constituency.

Registration hours will be between 8 a.m. and 10 p.m. each day, for the three days.

Every citizen in the district is urged to register early, thus preventing delay or disruption by a rush on the last day of registration. It is necessary that all persons register, and heavy penalties are provided by law for failure to register. Upon registration, a card will be given to each person. This card must be carried by the person at all times, as failure to present this when asked by an authoritative person, is contrary to law, and subject to fine or imprisonment. A reproduction of the card appears on page four of this issue of the Recorder, where regulations and penalties are also outlined. Everyone over the age of sixteen years, male or female, must register.

Naturalized persons in the district are urged to take their naturalization papers to the registration office with them, as these will be beneficial in answering some of the questions.

Lelland was born at Eramosa, Wellington County, Ontario, the daughter of the late John and Bridget Blanchfield. They were married in Arthur Village on July 28th, 1890. Soon afterwards they took up residence at Portage la Prairie, Man.

Receiving with Mr. and Mrs. Mc-

Swimming Competition To Be Held at Pool Next Wednesday

Expect Large Number Of Entries

Under the auspices of the Swimming Pool Committee, a committee of the Local Board of Trade, a Swimming and Diving Contest will be held in the local pool on Wednesday afternoon next, August 14, according to information given to the Recorder by Mr. H. McAmmond, chairman of the committee.

The contest will be made up of many events, including swimming races for boys and girls and men and women, relay races, swimming under water races and distance races, diving competitions, and numerous other aquatic events. The contest is open to all age groups, as it was stated to the Recorder "between the ages of one and ninety." Each age group will be classed together, so that no unfair advantage will be given one contestant over another by a difference in age.

All persons wishing to enter the competition are asked to kindly leave their entry at the Bassano Confectionery Store. When making an entry, be sure to state the age so that the contestant may be placed in the proper class. It is requested that all entries be made by Tuesday evening, August 13th, so that the committee may arrange the schedule of events early.

Prizes will be given to the winners of each event—and the prize list as outlined offers some very attractive gifts—worth a little effort on the part of any child or adult.

Mr. McAmmond, on informing the Recorder of the Competition, pointed out that there are some very excellent swimmers and divers in Bassano, amongst the older and younger set, and it was the opinion of the committee that a competition would stimulate interest towards the pool. Attendance and interest in the facilities offered at the pool have been much keener this year than in previous years it is reported.

All citizens of the town are urged to attend the exhibition. On Wednesday afternoon all stores are closed, and it is expected that local business men will rally at the pool to "pull for their favorite" to win. The competition will commence early in the afternoon. Local judges will be appointed to judge the various diving and swimming exhibitions.

HOSPITAL BOARD TO MEET THIS SATURDAY

Due to the death of Mr. Edwards, Sr., Father of S. H. Edwards, secretary of the Bassano Municipal Hospital District No. 6, the regular monthly meeting of the Board was not held on Saturday last as scheduled. The meeting will be held this coming Saturday, August 10th, in the Board's meeting room at the Hospital.

Mr. H. T. Johnson and Mr. Harry Beeher were business visitors in Medicine Hat on Wednesday of this week.

Eddie Marquardt assisted the Texas Survey Party in moving to Taber on Tuesday of this week, by taking a truck load of equipment. Mr. Marquardt, Sr., who has been working with the party while stationed in Bassano, also went with them to Taber where he will continue as night watchman.

ALBERT MEUCCI PATIENT IN HOSPITAL

Albert Meucci, local barber, is a patient in the local Hospital, suffering from a severe attack of asthma. Mr. Meucci has been suffering from this for several weeks, and Saturday last was removed to the hospital for treatment. His many friends in Bassano and District wish him a speedy recovery.

STANDPIPE BEING REPAIRED AND PAINTED

Mr. R. W. Wilson of Calgary, contractor, is in charge of repairing and painting the standpipe located one mile south-west of Bassano. The large standpipe is the source of water pressure for the Town of Bassano. Water is pumped into the tower from the pumping plant located just above the dam on the Bow River, three miles from town. Repair work has been going on at the standpipe for the past two weeks. Winds, and weather conditions, up to the past few days, have hampered progress of painting, and made the task exceedingly difficult for the contractor.

Sanitary Inspector's Report Favorably Received By Council

A regular meeting of the Bassano Town Council was held in the Town Hall on Monday evening of this week, August 5th, at 8 p.m. All members of the Council were present, and Mayor Playfair occupied the chair.

The report of the Provincial Sanitary Inspector was read to the Council and accepted. The report was very favourable, and outlined the inspections made by the provincial inspector recently. In the report, it was stated that a great improvement had been made at the local nuisance grounds, where a fence had been erected separating the grounds from the road allowance, and gates had been constructed. Rubbish in the form of tin cans, old auto bodies, etc., had all been removed to the western extremity of the grounds, out of sight of the main highway and railway lines passing near the premises.

The report of the Municipal Inspector, who recently conducted a routine inspection here, was also read and accepted by the Council.

The Town Engineer, in a detailed report, outlined work being undertaken in Bassano at the present time, and suggested numerous little improvements that could be inexpensively accomplished. He also outlined the work of repairing and painting the Town Standpipe, and stated that work was progressing very rapidly. It was suggested that the Town give every assistance to the construction of a loading platform at the local gravel pit, a few miles north-east of Bassano, and a resolution to this effect was moved by the council.

Mr. J. R. Donaldson, secretary-treasurer for the Town of Bassano, read his report for the month of July. It showed that during the month, receipts had amounted to \$5,111.70, and payments for the month had amounted to \$1,235.81.

FLOYD T. CARY, PUBLISHER

IMPROVEMENTS AT CEMETERY COMMENDABLE

Through the efforts of our local Undertaker, in co-operation with Local Citizens, a commendable transformation in the appearance of the Bassano Cemetery is at present taking place. Some months ago, a proposal was outlined to the Council, whereby the cemetery could be cleaned up, and kept up during the year, on a co-operative basis with persons interested in the upkeep of the grounds.

Early in the spring, letters were written to all persons whom the committee believed would be interested in such a proposal. The response to the letters was gratifying to say the least, but did not meet the expectations and hopes of the committee appointed in charge of the undertakings.

A large number of persons replied to the letters signifying their willingness to assist the committee with the task it has set out to do. Work commenced in the cemetery late in the month of June and readers may rest assured that it was no small task that confronted the committee. High weeds completely covered unmarked graves, and the committee spent much time checking over plot records in the Town Hall to determine locations of deceased persons. Aisles between rows of graves were overrun with weeds, and the entrance road was a shabby spectacle.

After a little over a month, this condition of the cemetery has, however, been greatly changed. Tall weeds have been mowed, the entrance road has been repaired and grass cut along its sides, trees have been irrigated, and at least two lawn sprinklers have been working constantly watering the grass in all parts of the premises. A large number of graves have been weeded, levelled off, and now look respectable. The sight is quite in contrast to that of two months ago. But the work is a long way from being completed as yet, and the committee will be busy for the remainder of this fall carrying out its duties.

After levelling off the graves, fresh grass seed is being planted, except for a small oval for flowers over each. Much of this seed has already been planted. This grass will be kept mowed and watered, and alone will be a decided improvement in the appearance of the grounds.

Those who neglected to communicate with the committee when the proposal was first outlined will, when they visit the cemetery, realize the benefits to be gained through co-operation on their part. One untidy looking grave in the midst of a number of tidy ones spoils the appearance of the committee's efforts. The work is really worth-while, and everyone should do their part to see that it is carried out to the fullest extent.

No. 2 HIGHWAY TO BE REPAIRED

A statement of the Alberta Motor Association in a recent issue of a daily paper indicates that the provincial government is considering repairing the No. 9 Highway from Langdon to Drumheller, and the No. 2 Highway from Strathmore to Duchess. This will be welcome news to motorists of this district, who have for the past couple of years constantly urged the govern-

BLAMES GOVERNMENT FOR STAMPEDE MARRIAGES

The Editor of the Stavelly Advertiser caused quite a stir in his community recently when he wrote an editorial on "Stampede Marriages." The article dealt mainly with the rush of young people of the district to the marriage bureaus before July 15th last, following an announcement made by the Dominion government that men not married before July 15th would be considered unmarried after that date. A wave of protest from his readers indicated that a little misunderstanding was connected with the government announcement. Apparently it was the belief of many that unless they were married by July 15th, the wives would not be provided for when the men were called up to serve the country. The bridegrooms stated that they were not endeavoring to hide behind any legal ties, but wanted to be sure that their wives would be cared for in a proper manner after their departure for service. Reports of "Stampede Marriages" around the 15th of last month came from all parts of Canada.

In our district, few, if any, marriages were performed before the date mentioned by the Government. Could this be attributed to considerable forethought on the part of our single citizens, or to the lack of initiative.

CANADA AT WAR: NATIONAL REGISTRATION

Editorial appearing July 24th, 1940
in "Der Nordwesten," published
at Winnipeg

The registration of all Canadians is a timely and right action on the part of the Dominion Government. Under the dynamic guidance of the newly appointed Minister of War Services, the Honourable James G. Gardiner, the task is likely to be completed with speed and efficiency. While the primary object is not to draft men into military service, it will ascertain in a very thorough manner who is fitted for such and who is not, and it will also reveal what contributions Canadians as individuals can make to the War that Canada, together with the Empire and its other Dominions is waging against the tyrannical forces of Hitler and Mussolini, now seeking to destroy every shred of liberty and freedom enjoyed by the free Democracies of the world. This National Registration is compulsory and any evasion is punishable by severe penalty. But even if that were not the case, we believe our people of all races would comply with it readily. In doing this, however, let no one delude himself with the thought that his responsibilities are over. As far as we in this country are concerned they are only commencing for all of us.

The views expressed by Der Nordwesten from week to week do not exaggerate the seriousness of the situation that confronts us. We believe our readers understand that for our attitude has been generally commended.

It would be much more pleasant to bring this road back up to standards. We have numerous side roads that are in much better condition than sections of this Trans-Canada Highway in our locality.

LETTERS TO THE EDITOR

Vimy Barracks,
August 3rd, 1940

Friends of Bassano:—

I would like to take this opportunity to thank you for your farewell salutations and gifts I received last week.

It is impossible to write to each of you individually for a short time but I assure you that I'll do my best.

The barracks are ultra modern and the three Bassano boys are in the best of health. Dispatch Rider H. Morrison shows great facility in handling his machine.

Anyone who can push a pen would certainly do us a favor by writing and letting us know the details of action in Bassano.

Thanks again, Bassano. I certainly appreciate your kindness.

Yours truly,
M55242

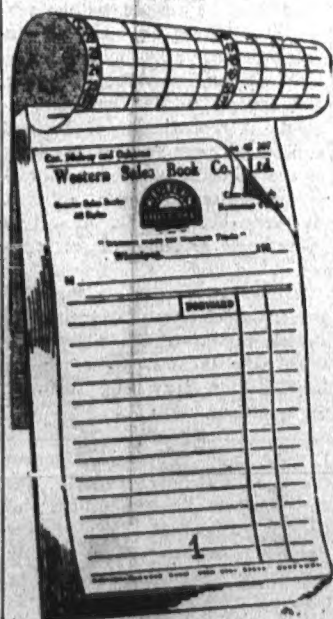

Sigmn. Broadfoot W. R.
Room 1, Block 6
"D" Coy R. C. C. S.,
Vimy Barracks,
Kingston.

If we could say that we are safe on this side of the Atlantic from the terror which is, day and night, sweeping over the British Isles. But we are not—and though we should escape the physical dangers, what would it profit us, if we were to be subjugated instead.

We are keenly appreciative of the difficulties that the tragedy forced upon us, brings to loyal German Canadians. Many of them still have close ties of kinship with their Fatherland and the sentiments which arise from that fact are not readily eradicated, nor should they be under less dangerous circumstances. This, however, is the day of stern realism. All those who love Canada must put Canada first, and must act with all the force of which they are capable, remembering that the War is not of Canada's creation, not of Britain's creation, but was conceived and plotted in the Chancelleries of Germany and Italy, with the dominating object of crushing all nations that would not bow the knee to the Dictators' views of civilization. This is the challenge which Britain and her Dominions (with their own absolute power of self-government) accepted. This is the War which, with Canada's help in man power, supplies and undaunted courage, must be won, and it will be won if all that is worth living for is not to vanish from this land which we cheerfully accepted as our home.

JAMES JOHNSTON

"THE STORE OF QUALITY"

ion over half a century, we feel that there should be no misunderstanding among our people. If there are any newspapers printed in the German language in Canada that are not dealing with the drastic realities of the War and that unequivocally, they are rendering a disservice not only to the country, but to the vast majority of the German people whose loyalty to Canadian Institutions is not now, and never was, in question.

RECRUITS 8,500 MEN A WEEK IN CANADA

During the five week period between June 14 and July 21 over

42,000 men were recruited for active service in the Canadian army or the equivalent of two and one half divisions. On July 21 there were 31,607 troops outside Canada and 101,965 in Canada, a total of 133,572.

CANADA'S ARM YGROWS

Nine infantry battalions, five motorcycle regiments, a forestry corps and additional coast defence units have been formed since the present parliamentary session started.

THE POET'S CORNER

WHEN SHE COMES HOME

When she comes home again! a thousand ways
I fashion to myself, the tenderness
Of my glad welcome; I shall termble—yes;
And touch her, as when in the old days
I touched her girlish hand, nor dared upraise
Mine eyes, such was my faint heart's sweet distress.
Then silence; and the perfume of her dress,
The room will sway a little, and a haze
Cloy eyesight, soulsight—even, for a space;
And tears—yes; and the ache here in the throat,
To know that I so ill deserve the place
Her arms make for me; and the sobbing note
I stay with kisses, ere the tearful face
Again is hidden in the old embrace.

Fort Prince of Wales

It Took Forty Years to Complete;
Had Walls Forty Feet Thick;
Mounted Forty Guns; and was
Captured in Forty Minutes.

Fort Prince of Wales at the mouth of the Churchill River on the Hudson Bay has the distinction of being the most northerly fortress on the North American continent. It took nearly 40 years to complete, and rivalled Louisbourg and even Quebec in strength. Each of its four walls was 40 feet thick, over 300 feet in length, and rose to a height of 16 feet. On their parapets were mounted 40 guns ranging from 8 to 24 pounders. No other fort of such strength and proportions was built by the Hudson's Bay Co. It was their answer to the French challenge in the Hudson Bay region yet it was surrendered to a French fleet, consisting of three small men-of-war under the command of Admiral La Perouse, without a single shot being fired.

Samuel Hearne, who was Governor of Fort Prince of Wales at the time of its capture by the French, proved a better explorer than a military commander. His journey on behalf of the company to investigate reports of copper northwest of Churchill was perhaps the most noteworthy feat ever recorded in the annals of the Hudson's Bay Company's explorations. After two unsuccessful attempts he finally succeeded in reaching Copper Mine River in 1771, travelling on foot a distance of 1300 miles across the Arctic wastes. On his journey he faced hardships and difficulties which only a man of courage and great resource could overcome; yet it is related that as soon as the French fleet appeared off Fort Prince of Wales and demanded its surrender, Governor Hearne immediately seized a white tablecloth and hoisted it over the parapet. The attackers had merely to come ashore and walk into the fort through wide-open gates. It is true that at the time the garrison of the fort consisted of only 40 men,

the remainder having gone on a hunting expedition, but had the Governor known, even this small force could perhaps have defended the great stronghold. The French sailors were weak from the long sea voyage, wretchedly clad, half of them barefoot, and they were short of food. With the easy capture of Fort Prince of Wales they were able to repair most of these deficiencies and sail south to capture another rich prize, York Factory, with little difficulty. Before leaving Fort Prince of Wales, the French spent two days endeavouring to demolish its walls, but only succeeded in displacing the upper rows of the massive stones.

Restoration work on this old fort has now been carried out by the National Parks Bureau at Ottawa and as a result much of it stands today in almost the same condition as La Perouse left it 160 years ago. Few people had visited it prior to the building of the Hudson Bay Railway to Churchill. Nowadays, with the growing popularity of northern travel in summertime, the old Fort has many visitors each year.

HELP THE REGISTRATION

There are many ways in which you can help the work of national registration. First, of course, register—and register early.

It is anticipated that eight million people will register during the three days—August 19, 20, and 21. That is not quite twice the number who polled their votes in the last election, but it's fairly close to it.

Perhaps the deputy registrar in your own territory could use your services. You might help on the day of registration.

It ought to be a matter of honour in this particular district to have the registration as full and complete as possible.

MEASUREMENT OF THRESHED GRAIN

The problem of providing storage for this year's crop raises the question of the space required for any given quantity of threshed grain.

A bushel of threshed grain occupies 1.4 cubic feet. To determine the amount of grain which any building will hold, find the length, width and height in feet. Next multiply the length by the width by the height, which gives the number of cubic feet. Multiply

this figure by decimal eight (.8) and the result is the number of bushels which may be placed in the bin. Thus a bin 12 feet long, 10 feet wide and 8 feet high is 12X10X8 or 960 cubic feet. 960 cubic feet will hold 960X.8 bushels or 768 bushels.

If it is necessary to build a granary to hold a given quantity of grain, the calculations are reversed. Since a bushel of grain occupies 1.4 cubic feet, 1,000 bushels would occupy 1,400 cubic feet and so on. If one divides the number of cubic feet occupied by a given quantity of grain by the height one wishes to build the bin, the floor area is obtained. Thus 1,000 bushels in a bin 8 feet high would need a floor area of about 156 sq. feet, or a floor about 12X13 feet in size.

REGULATIONS PERTAINING TO ADMISSION OF FIREARMS

The Fish and Game Branch has recently been informed of the official regulations pertaining to the admission of firearms into Canada by hunters and other visitors from the United States.

These regulations are quoted for the benefit of those having friends or relatives in the United States who may be planning a hunting trip or to visit Canada.

The new regulations provide that intending hunters or others who wish to bring their firearms to Canada and a reasonable supply of ammunition therefore, are required to apply in advance by letter or wire to the Commissioner of Customs or the Commissioner of

Singing Star Enjoys Banff Interlude

Blonde, petite Hope Manning, whose glorious voice is known to millions of radio fans, found peaceful relaxation at Banff in the Canadian Rockies between singing engagements. The Columbia singing star, who is seen here at the famous open-air sulphur pool at the Banff Springs Hotel, traveled through Canada on her way east to St. Louis where she was to start a month with the famous "Muny" Operas. She had just completed an engagement with John Charles Thomas and the Los Angeles Light Opera.

WHEN YOU REGISTER YOU GET THIS CERTIFICATE

National Registration is a plan to mobilize and direct our human resources—to assist Canada in the present crisis. When you register you will receive a certificate, convenient for card case or pocket—tangible evidence that you have complied with government regulations. It is not only a record for the Government, it is also for your protection. As such, you will be required to carry this card with you at all times. Its presentation can be demanded at any time by the proper authorities.

EVERYONE CAN HELP—To keep the cost of this registration at a minimum the Government is asking the co-operation of all public-minded citizens in the work of registration. You can help by getting in touch with your local registration officials and offering your services.

WHERE TO REGISTER

Registration offices are being set up by electoral districts in the same manner as in the last Dominion election.

Registrants are required to register in the regular polling subdivisions of their own constituencies. But should a registrant be in some other province or district out of the regular polling subdivision on Registration Days, he or she may register at any registration office convenient, upon satisfactory explanation to the local deputy registrar.

Penalty for Non-Registration—Failure to register will make any male or female, married or single, over the age of 16 years, liable to a fine not exceeding Two hundred dollars, or to imprisonment for a term not exceeding Three months, or to both such fine and imprisonment, and moreover to a further penalty not exceeding Ten dollars for each day, after the day upon which he should have registered, during which he shall continue to be unregistered.

Published under the authority of **HON. JAMES G. GARDINER**

GOOD YEAR
MARATHON
PIERSON'S
SERVICE STATION
BASSANO, ALBERTA

In Ottawa

By F. W. Gershaw, M. P.

The Session just closing has been a War Session and assembled at a moment of intense warfare in Europe. A review of the record shows how a peace loving Nation of eleven million has been organized to fight for the preservation of freedom and democracy.

After the untimely death of Mr. Rogers, the new Minister of Defence, Colonel Ralston, was given wide powers.

A Minister of Defence for Air, Mayor Powers, and a Minister for the Navy, Honourable Angus McDonald, were appointed. All of these men saw much service in world war.

A billion dollars worth of supplies including everything from boots to battle ships and from huts to service flying Training Schools were needed. Mr. C. D. Howe, with a host of volunteer executives, have been in charge of this work and no greater task has ever been attempted and more satisfaction carried out.

The Act respecting Treachery states if with intent to help the enemy any person does or attempts or conspires to do any act which is designed to give assistance to the military, air or naval operations of the enemy, shall on conviction suffer death. If the action is not quite so serious the penalty may be life imprisonment.

There are 102 sections in the Unemployment Insurance Act. About 4,600,000 people in Canada will be

affected by this Act. The Government pays 1-5 of the cost and also the cost of administration. The employer pays from 18c to 27c per week depending on the wages paid. The employee pays from 9c to 36c also depending on the wages he receives.

When a person who is unemployed and otherwise eligible for benefits, the amounts received will vary from \$4.08 to \$12.24 for a single person with a dependent. This bill will not in any way cure unemployment but many countries have had successful experience with it.

The Alberta Bank Bill was discussed at nine lengthy Sessions. Mr. Low, from Edmonton, gave much evidence. Mr. Blackmore thanked the members for their interest and fairness in the long discussions. The deciding factor in the decision to refuse the application was the of the law officers of the Crown.

These men who are specialists in such laws gave the opinion that this Parliament had not the power to grant the request. It would mean conferring powers on a Provincial Government and the B.N.A. Act does not permit the adding to or taking away from these powers. Any bank must be liable to be sued and a province cannot be sued except by its own permission. Again a director must be a person with special banking knowledge and must be personally responsible and not as a trustee of the public funds. The members of the Committee seemed to be sympathetic but the evidence seemed to be convincing and the decision seemed to those who are privileged to hear meet with general approval by

EDMONTON MOVIE

Made last year by the Edmonton Junior Chamber of Commerce, a movie film is being shown in the Canadian Pavilion at the New York World's Fair. Stressing beauty spots and major attractions through out the city, the film was shown to service clubs and other organizations during last year's beautification drive. Officials of the Junior Chamber are confident it will help promote interest in Alberta's capital city.

Members have felt the strain of the hard Session and Cabinet Ministers have made sacrifices only less than those in the active forces.

THE BEET WEBWORM IS DESTROYING ALBERTA CROPS

The Beet Webworm, which is appearing in considerable numbers in Central Alberta this year, according to reports received at the Dominion Experimental Station, Lacombe, has caused considerable alarm in the districts where it is numerous, and is likely to cause extensive damage to gardens.

This worm is often mistaken for the Army Worm because of its marching habit. It may be distinguished, however, by the fact that its full-grown length is about one inch, a half inch shorter than the army worm. The general color of the webworm is green or yellow with very distinct black marking arranged in lines and spots.

The Beet Webworm is the caterpillar stage of a small, brown moth which lays its eggs on a number of broad-leaved weeds, preferably lamb's quarter, pigweed or Russian Thistle. The young larvae which hatch from the eggs, at first eat the underside of the leaves, but later may destroy the whole plant and where they are numerous enough, all the weeds are destroyed and the whole mass of "worms" move off in an army, feeding on a large variety of plants as they travel.

It should be noted that these worms do not feed on most field crops, harming only flax and alfalfa to some extent when no other food is available. On the other hand, they have a beneficial affect in the field through the destruction of such common weeds as Lamb's quarter, Russian thistle and Canada thistle.

In gardens, however, the webworm may cause severe damage. Though they prefer to feed on the weeds mentioned above, there is hardly a garden plant they will not attack. Where these worms are numerous the whole garden crop is likely to be destroyed unless prompt and effective control measures are taken.

The worms can be prevented from coming into the garden by plowing a furrow around it, turning the furrow away from the garden and with the land side of the plow towards the garden, so that they will have a straight faced wall to climb. The furrow should be 8 to 10 inches deep so that the worms tend to fall back when they try to climb the straight faced wall and will crawl along the bottom of the furrow to find a better place. They can be trapped in the bottom of the furrow by digging post holes in the bottom of the furrow every 10 to 12 feet along its length. The worms fall down into the post holes and can be destroyed there. In the case of webworms attacking fields of alfalfa, potatoes, or beets, a spray made up of Paris Green—3 pounds, lime—3 pounds, and 100 gallons of water, applied at the rate of 100 gallons to the acre, is effective. After a garden has been invaded, spraying with Paris Green so as to cover every worm as far as is possible, gives good results. It must be remembered, however, that Paris Green is highly poisonous; that any vegetable sprayed with it should be thoroughly washed, rinsed and peeled before use.

Mr. and Mrs. Herbert Meidinger and son Billy and Mr. and Mrs. M. Meidinger motored to Medicine Hat where they visited last week-end.

Mrs. J. M. Heaton and son Paul of Edmonton visited at the home of Mr. and Mrs. K. Bowerman, the past week.

tennis talk

Not much to report this week on account of very little activity on courts which is regrettable as the centre and east courts are in first class shape and the weather is all that could be desired.

Only one of the three boys mentioned in last weeks notes was good sport enough to come forward and admit his part in the doings of the previous week-end, and if he should decide to become a member of the club next year, if not this season, he will be more than welcome. As for the others they dont seem to have all the qualities that go towards making a good boy scout, and seem to prefer to stay in the doghouse rather than come clean.

Where is Parkie parking these evenings? Haven't seen him on the courts for a couple of moons. Better get off the wheels and into the tennis shoes for a spell.

Glad to see Lorna swinging the racquet again, and we would like to see the juniors making better use of the courts. If they dont show more interest in tennis their chances of having a tennis club next year wont be very bright.

E.I.D. NOTES

Farmers of the District are requested to note that under the provisions of the "Noxious Weed Act" they are not only responsible for the destruction of weeds on the land owned or occupied but in addition on land up to the centre line of all contiguous road allowances or highways.

LATHOM

Mr. and Mrs. R. Z. Lore and family were guests of Mr. and Mrs. R. J. Stulsatz, Sunday last.

Miss Marian Merithew of Calgary was a guest of Mr. and Mrs. E. H. Merithew for four days last week. She was the honor guest at a tea Saturday afternoon when Mrs. R. Lore, Mrs. M. Warren, Mrs. L. Comer, Mrs. Angus Snaith, Mrs. G. Snaith and Mrs. G. Goudie, were present.

We see Justin is creeping about without his crutches now. He'll be as good as new when he loses his limp.

Mr. and Mrs. L. Munro are enjoying a short holiday in Queens-town, where they are visiting Mrs. Munro's mother, Mrs. Thompson.

BORN AT THE HOSPITAL

To Mr. and Mrs. Paul Larson, Hussar, a daughter on August 5th.

To Mr. and Mrs. Raymond Hoeght, Hussar, as son on August 7.

R. C. Serives will be held in the local Catholic Church on Sunday next, August 11th, at 9 a.m. Rev. Fr. Morrow of Brooks will officiate.

Gem Notes

Mrs. Fladhamer is a patient in the Bassano Hospital, we wish her a speedy recovery.

Mr. and Mrs. Jack Wallace of Finnegan passed through the Colony Thursday last, on their way to Brooks.

Miss Jean Wallace of Gem, is visiting friends near Hanna.

Mr. and Mrs. McKay visited at the Brown home on Saturday.

DeWaine Samdahl underwent an operation in the Bassano Hospital Saturday morning, we are glad to hear he is improving.

Mrs. Samdahl and Beverly Kay are visiting at the home of Mr. and Mrs. Powell.

Mr. and Mrs. J. Brown and family were supper guests at the home of Mr. and Mrs. G. Snaith on Sunday.

GAS MASKS FOR CANADA, ALLIES

All Canadian troops proceeding overseas were equipped with respirators, according to Hon. J. L. Ralston, Minister of National Defence. All coast defence troops are equipped with gas masks and

Canadian production is geared not only to fill Canada's requirements but also to furnish a substantial number to allied troops.

CANADIANS TO FIGURE TO ATTACK

When the battle of Britain has been won, "then the active service components of our defence forces will be operating in overseas theatres in co-operation with other Empire Forces. This war must be won and no war can be won by defensive measures alone."—Colonel the Honourable J. L. Ralston in the House of Commons.

AIR FORCE PERSONNEL RISES

The Royal Canadian Air Force has grown from a personnel, all-strength, of 10,410 on March 31, to a force of 19,435 men on July 24. There are 1,765 officers and 17,668 airmen.

Mr. M. A. MacLean was a Calgary visitor on Tuesday of this week.

Mr. and Mrs. Jimmie Johnson have as their guests friends from Calgary.

Mr. Harry Beeber was a week-end visitor at the home of his daughter and son-in-law, Mr. and Mrs. R. Bresnicoff of High River.

WEDDING ANNIVERSARY (Continued from page 1)

Lelland on Sunday afternoon were Mrs. Kathleen Cogan of Toronto, a sister of the bride of fifty years ago, and Rev. Father Cogan of Saskatoon, a nephew of the golden wedding celebrants.

Mrs. McLelland, looking charming, wore a floor length gown of royal blue georgette crepe, with corsage of roses. Mrs. Cogan wore a gown of Alice blue lace, with corsage of roses.

Mrs. Harry Walsh and Mrs. Jas. Foster presided over the tea tables for the first hour, Mrs. J. K. Brimacombe and Mrs. E. S. Wilson taking their places. The tea table attendants five granddaughters of Mr. and Mrs. McLelland, the Misses Kathleen, Patricia and Shirley Smith of Bassano, Alta., Blanche Dorsett of Regina, and Margaret McKinstry of Griffin.

Over two hundred guests signed the register, which was in charge of Miss Joyce Smith of Bassano.

Besides the many congratulatory messages, Mr. and Mrs. McLelland were the happy recipients of many beautiful gifts. Among the out-of-town guests were Mrs. Mullen of Toronto, Mr. and Mrs. E. Cooke of Litowel, Ont., M. J. Roche of Estevan, Mrs. J. Mullet of Chengtu, Szechwan, west China, Jack H. Mullett of Toronto, Mrs. K. Cogan of Toronto, and Rev. Father Cogan of Saskatoon.

Attending the golden wedding of their parents were Mrs. R. Harvey Smith and five children of Bassano, Alta.; Mrs. H. Dorsett and Mr. Dorsett and their daughter of Regina, and Mrs. J. L. McKinstry and three children and three grandchildren of Griffin.

Mr. McLelland was born on October 8, 1866, and Mrs. McLelland on June 20, 1873. Their only son, Isaac Edison, died in Weyburn in 1910.

Mr. McLelland served as mayor of Weyburn in 1926 and previous to that had served for several years as an alderman of the city. His great hobby all his life has been race horses. He is widely known in turf circles throughout western Canada and still loves to step out in a sulky behind a fast traveling pacer. Possibly his greatest achievement in the "sport of kings" was his ownership of Don Mack, that wonderful harness horse who set up a record of 2:08½ and held the exalted position of "Three-quarter-mile Champion of the World." Mr. McLelland has served as chairman of race committees at Weyburn fairs since coming to the city thirty-one years ago.

ADDITIONAL LOCALS on PAGE 5

Mrs. MacFarland was a Calgary visitor the first part of this week.

Miss Winnifred Playfair is visiting in Calgary for a couple of days.
